ISCAT 2026 - 32 years of expertise in catheter ablation innovation.

The field of cardiac electrophysiology has never evolved so rapidly—and neither has ISCAT.

After 32 years of pioneering expertise, ISCAT continues to expand its board of directors by bringing together **EP leaders from 10 countries** in order to remain at the forefront of scientific progress in cardiac electrophysiology.

The **16th International Symposium on Catheter Ablation Techniques** will mark this new era, from **November 25 to 27, 2026**, at the **Pullman Paris Montparnasse**. (Please note the change of venue).

Connected to the world's leading research groups, **ISCAT 2026** will offer a scientific program of the highest excellence, promoting cutting-edge knowledge, dynamic discussions, and cross-border collaborations.

We are entering a major turning point in catheter ablation: **Pulsed Field Ablation (PFA)** is no longer a promise — it is becoming a new standard.

ISCAT 2026 will give you exclusive access to the latest data on safety and efficacy, direct from ongoing studies and international pioneers.

We will remain true to our DNA, which is **translational science combined with the latest technological advances in our field** through highly interactive, video-enhanced sessions designed to challenge ideas and foster innovation.

As always, ISCAT remains committed to training and excellence, with satellite sessions for young EPs organized by the RETAC and allied professionals (Nurses and EP techs).

We can't wait to see you in Paris, November 2026!
The Organizing Committee.

WEDNESDAY, NOVEMBER 25

13.45 – 14.00

Opening Ceremony

14.00 – 15.20

Session #1: AF Anticoagulation in the future

Chair: Charles Guenancia, Dijon - France – Etienne Aliot, Nancy - France

14.00-14.08 • Are all AF exposing to the same risk: role of AF burden
*Nina Becher, Hamburg - Germany**

14.08-14.16 • Is CHADS-VA the right tool? *Josselin Duchateau, Bordeaux - France*

14.16-14.32 • Debate: Are we over anticoagulating patients with successful AF ablation?
- Pro *Dan Wichterle, Prague - Czechia*
- Con *Laurent Fauchier, Tours - France*

14.32-14.44 • LAA closure during PVI - *Pre-recorded live case*
Romain Eschalier, Clermont-Ferrand - France

14.44-15.00 • Debate: Left atrial appendage occlusion combined with AF ablation
- Pro *Ulf Landmesser, Berlin - Germany**
- Con *Fabrice Extramiana, Paris - France*

15.00-15.20 • Discussion

15.20 – 17.00

Session #2: Should we map AF, does it help increasing outcome in persistent AF?

With the support of Boston Scientific

Chair: Laure Champ-Rigot, Caen - France – Mélèze Hocini, Bordeaux - France

15.20-15.28 • Reentry as a Mechanism of AF: Human Insights Beyond the Pulmonary Veins *Elad Anter, Beer Yakov - Israel*

15.28-15.36 • Functional vs. Structural Remodeling: What Defines the AF Substrate? *Antonio Frontera, Milan - Italy*

15.36-15.44 • What are AI based mapping and ablation results and how to achieve freedom from all recurrences?
Isabel Deisenhofer, Munich - Germany

15.44-15.56 • What are Flow EGM mapping and ablation results?
Pre-recorded live case *Lucas Boersma, Nieuwegein - The Netherlands*

15.56-16.04 • Simultaneous multisite mapping of irregular macroreentry during atrial fibrillation: clinical implication beyond pulmonary vein isolation
Thomas Pambrun, Bordeaux - France

16.04-16.12 • PVI + PW : why bothering with the complete Marshall plan?
Melanie Gunawardene, Hamburg - Germany

16.12-16.20 • Anatomical approach is all you need
Nicolas Derval, Bordeaux - France

16.20-16.28 • How PFA reshapes safety boundaries within the framework of evidence-based medicine and PROMPT AF 2 *Yiwei Lai, Beijing - China*

16.28-17.00 • Discussion

*Potential speakers**

17.00 – 17.30 Coffee break in the exhibition area
RETAC practical rhythmology workshops

17.30 – 18.30

Session #3: Risks and benefits of PFA

With the support of Abbott

Chair: Melanie Gunawardene, Hamburg - Germany – Ante Anic, Split - Croatia

17.30 - 17.38 • Basics of PFA: why all PFA system are not the same?
Laure Champ-Rigot, Caen

17.38 - 17.46 • Feed-back from the french PFA experience
Frederic Anselme, Rouen - France

17.46 - 17.54 • Coronary spasm-Proximity-Related vs Generalized, risk of sudden cardiac death? *Jacob Koruth, New York - USA*

17.54 - 18.02 • Other PFA related complications (hemolysis, inflammation, Laryngo spasm, CEID dysfunction ...) *Miruna Popa, Munich - Germany*

18.02 - 18.10 • Live Volt case with AWAKE protocole *Roland Tilz, Luebeck - Germany*

18.10 - 18.20 • Discussion

THURSDAY, NOVEMBER 26

08.30 - 09.30

Session #4: Challenging AF and AT cases

Chair: Nicolas Derval, Bordeaux - France

- 08.30 - 08.40 • Recurrence after Durable PVI: Mechanistic Clues to What Remains — *Elad Anter, Tel Aviv - Israël*
- 08.40 - 08.50 • Topological mindset for AT analysis — *Mattias Duytschaever, Bruges - Belgium*
- 08.50 - 09.00 • Challenging and non-macroreentrant ATs — *Roin Rekvava, Tbilisi - Georgia*
- 09.00 - 09.10 • My tricks for challenging linear lesions — *Arian Sultan, Hamburg - Germany*
- 09.10 - 09.30 • Discussion

09.30 - 10.30

Session #5: PFA – Indications and tools in AF ablation

With the support of Medtronic

Chair: Stéphane Combes, Toulouse - France – Pierre Jais, Bordeaux - France

- 09.30 - 09.40 • Should we ablate asymptomatic Pers AF patients at the era of PFA? — *Arian Sultan, Hamburg - Germany*
- 09.40 - 09.50 • Future tools in AF ablation — *Jacob Koruth, New York - USA*
- 09.50 - 10.00 • Patient level PFA meta-analysis — *Daniel Scherr, Graz - Austria*
- 10.00 - 10.10 • Pre-recorded sphere 360 case — *Jérôme Lacotte, Massy - France*
- 10.10 - 10.30 • Discussion

10.30 – 11.00 Coffee break in the exhibition area
RETAC practical rhythmology workshops

11.00 – 12.00

Session #6: AF ablation indications

With the support of Atricure

Chair: Jean-Paul Albenque, Toulouse - France – Jean-Marc Sellal, Nancy - France

- 11.00 - 11.10 • Personalized lifestyle intervention to improve AF ablation outcomes — *Lukas Dekker, Eindhoven - The Netherlands*
- 11.10 - 11.20 • Early vs delayed AF ablation: what is the right timing, when is it too late? — *Serge Boveda, Toulouse - France*
- 11.20 - 11.30 • AF ablation in specific conditions (laminopathies, HCM or amylose), does it worth it? — *Andrea Mazzanti, Pavia - Italy*
- 11.30 - 11.40 • Tachycardiomyopathy detection and management — *Claire Martin, Cambridge - UK*
- 11.40 - 11.50 • Hybrid AF ablation (endo-epi) — *Jean-Baptiste Guichard, Barcelona - Spain*
- 11.50 - 12.00 • Discussion

12.00 – 13.15

Session #7: 30 years Anniversary of Cardiac Mapping

Chair: Karl-Heinz Kuck, Hamburg - Germany – Frank Marchlinski, Philadelphia - USA

- *12.00 - 12.10* • Electrophysiology before 3D mapping? *Michel Haïssaguerre, Bordeaux - France*
- *12.10 - 12.30* • Past, present and future Carto versions, vision at 10 years! *Karl-Heinz Kuck, Hamburg - Germany*
- *12.30 - 12.40* • Future of catheters (Feather, PFA portofolio) *Alexandre Almorad, Brussels - Belgium*
- *12.40 - 12.55* • My ideal EAM system *Pierre Jaïs, Bordeaux - France; Elad Anter, Tel Aviv - Israël; Andreu Porta-Sanchez, Barcelona - Spain*
- *12.55 - 13.15* • Discussion

13.15 – 14.15 Lunch break in the exhibition area
RETAC practical rhythmology workshops

14.15 – 15.40

Session #8: Autonomic Nervous System

Chair: Dan Wichterle, Prague - Czechia – Sandro Ninni, Lille - France

- *14.15 - 14.25* • Cardiac autonomic innervation. What is known and what remains to discover? *Veronica Dusi, Turin - Italy*
- *14.25 - 14.35* • Surgical ablation of IST and POTS *Carlo De Asmundis, Brussels - Belgium*
- *14.35 - 14.45* • CNA ablation targets and tactics: a surgeon's view *Bart Maesen, Maastricht - The Netherlands*
- *14.45 - 14.55* • Reinnervation and redos: Axonal damage? Nerve sprouting? What strategy? *Stefanos Zafeiropoulos, Zurich - Switzerland*
- *14.55 - 15.07* • Cardioneuroablation - *Pre-recorded live case* *Josselin Duchateau, Bordeaux - France*
- *15.07 - 15.40* • Discussion

15.40 – 16.40

Session #9: Failures in EP - learning from redo cases

With the support of Zoll

Chair: Frédéric Sacher, Bordeaux - France – Roin Rekvava, Tbilisi - Georgia

- *15.40 - 15.55* • AF/ALF case *Ante Anic, Split - Croatia*
- *15.55 - 16.10* • SVT case *Daniel Scherr, Graz - Austria*
- *16.10 - 16.25* • Ventricular arrhythmia case *Frank Marchlinski, Philadelphia - USA*
- *16.25 - 16.40* • Discussion - Q&A system

16.40 – 17.10 Coffee break in the exhibition area
RETAC practical rhythmology workshops

17.10 – 18.20

Session #10: SCD, AI and risk stratification

Chair: Olivier Piot, Saint-Denis - France – Eloi Marijon, Paris - France

17.10 - 17.20 • Digital twin, and risk prediction
Maxime Sermesant, Sophia Antipolis - France

17.20 - 17.30 • Remote monitoring and AI-driven arrhythmia detection (wearables, loop recorders, smartwatches)
Fleur Tjong, Amsterdam - The Netherlands

17.30 - 17.40 • Identifying Ventricular Dysfunction Indicators in Electrocardiograms via Artificial Intelligence-Driven Analysis
Hisaki Makimoto, Lübeck - Germany

17.40 - 17.50 • Can sudden cardiac death be predicted and prevented?
Michel Haïssaguerre, Bordeaux - France

17.50 - 18.00 • PROFID-EHRA. Latest Insights *Gerhard Hindricks, Berlin - Germany*

18.00 - 18.20 • Discussion

FRIDAY, NOVEMBER 27

08.30 – 09.30

Young Investigator Session / EHRA
with EHRA presentation by Daniel Scherr
Chair: Estelle Gandjbakhch, Paris - France – Pierre Jaïs, Bordeaux - France – Philippe Maury, Toulouse - France

08.38 - 08.46 • Dose-associated electroanatomical remodeling after stereotactic arrhythmia radioablation: a multimodal voltage analysis in patients undergoing redo ventricular tachycardia ablation
Melvyn Dezecot, Rennes - France

08.46 - 08.54 • Three-Dimensional Non-invasive Localization of Ventricular Tachycardia Circuits Using Volumetric Source Imaging
Pranav Bhagirath, Amsterdam - The Netherlands

08.54 - 09.02 • Comprehensive assessment of thermal effecs of pulse field ablation using a thermochromic hydrogel *Jaspal Gill, London - United Kingdom*

09.02 - 09.10 • Noninvasive Functional Remapping of Ventricular Tachycardia Substrate with Periprocedural Volumetric Source Imaging
Pranav Bhagirath, Amsterdam - The Netherlands

09.10 - 09.30 • Discussion

09.30 – 10.50

Session #11: Cardiac Imaging in 2026: how to and why?
Chair: Jean-Marc Sellal, Nancy - France – Elad Anter, Tel Aviv - Israël

09.30 - 09.38 • Value of cardiac CT and Photon Counting CT scan for EP procedure
Hubert Cochet, Bordeaux - France

09.38 - 09.46 • Usual, new and future of cardiac MRI *Aurélien Bustin, Bordeaux - France*

09.46 - 09.58 • Single-beat ECGI for hemodynamically unstable VT: noninvasive maps to guide invasive strategy - *Pre-recorded live case*
Andreu Porta-Sanchez, Barcelona - Spain

09.58 - 10.06 • Value of Intra-Cardiac Echography *Petr Peichl, Prague - Czech Republic*

10.06 - 10.14 • Imaging parameters that define VT recurrences
Ivo Roca-Luque, Barcelona - Spain

10.14 - 10.26 • Image guided ablation in Randomized controlled trial - *Pre-recorded live case* *Frédéric Sacher, Bordeaux - France*

10.26 - 10.50 • Discussion

10.50 – 11.20 Coffee break in the exhibition area
RETAC practical rhythmology workshops

11.20 – 12.50

Session #12: Alternative technologies in VT/PVC ablation: when and in whom?

Chair: Nicolas Lellouche, Paris - France – Tomasz Jadczyk, Krakow - Poland

11.20 - 11.30 • Stereotactic Ablation, known and unknown mechanisms
Tomasz Jadczyk, Krakow - Poland

11.30 - 11.40 • Complex PVCs and intramural foci: a stepwise mapping algorithm and advanced ablation strategies *Andres Enriquez, Philadelphia - USA*

11.40 - 11.50 • Is there a role for focal PFA in VT/PVC ablation?
Martin Ruwald, Copenhagen - Denmark

11.50 - 12.00 • Application of PFA in ventricular arrhythmias: China experience
Huimin Chu, Ningbo - China

12.00 - 12.10 • PVC ablation with focal PFA - *Pre-recorded live case*
Roland Tilz, Lubeck - Germany

12.10 - 12.20 • Alcohol Ablation *Maarten De Smet, Bruges - Belgium*

12.20 - 12.30 • High Power PFA for VT *Pierre Jaïs, Bordeaux - France*

12.30 - 12.50 • Discussion

12.50 – 13.50 Lunch break in the exhibition area
RETAC practical rhythmology workshops

13.50 – 14.50

Session #13: VT Storms and rare conditions

Chair: Vincent Probst, Nantes - France – Frank Marchlinski, Philadelphia - USA

13.50 - 14.00 • Cardiogenetic Disease: Role of the Immune System
Estelle Gandjbakhch, Paris - France

14.00 - 14.10 • Percutaneous stellate ganglion ablation *Simone Savastano, Pavia - Italy*

14.10 - 14.20 • Mapping to identify NICMP origin and guide biopsy
Philippe Maury, Toulouse - France

14.20 - 14.30 • When to ablate in NICM, ICM? *Raphael Martins, Rennes - France*

14.30 - 14.40 • How to deal with VF storm? *Mélèze Hocini, Bordeaux - France*

14.40 - 14.50 • Discussion

14.50 – 16.30

Session #14: How to treat VT in 2026?

Chair: Philippe Maury, Toulouse - France – Jean-Marc Sellal, Nancy - France

14.50 - 14.58 • How and why structuring a VT unit? *Paolo Della Bella, Milan - Italy*

14.58 - 15.08 • Techniques and tools to improve safety of epicardial access
Francis Marchlinski, Philadelphia - USA

15.08 - 15.16 • Substrate mapping, an overview of the available annotation tools
Elad Anter, Tel Aviv - Israël

15.16 - 15.28 • Automated DeEP mapping results - *Pre-recorded live case*
Andreu Porta-Sanchez, Barcelona - Spain

15.28 - 15.36 • In congenital heart diseases *Victor Waldmann, Paris - France*

15.36 - 15.44 • Septal VT ablation *Frédéric Sacher, Bordeaux - France*

15.44 - 15.52 • Targeting mobile intracavitary structures
Romain Tixier, Bordeaux - France

15.52 - 16.04 • VT ablation using Smarties - *Pre-recorded live case*
Jean-Marc Sellal, Nancy - France

16.04 - 16.30 • Discussion

PROGRAMME PARAMÉDICAL

MERCREDI 25 NOVEMBRE

13.45 - 14.00

Cérémonie d'ouverture

14.00 - 15.00

Les explorations électrophysiologiques endocavitaires

Modération : Flore Briot, Essey-lès-Nancy – Walid Amara, Montfermeil

- Notions d'anatomie/physiologie pour comprendre la rythmologie — *Mathieu Echivard, Nancy*
- Quand et pourquoi demander une exploration ? (indications, réalisation pratique) — *Baptiste Maille, Marseille*
- Interprétation des signaux endocavitaires — *Mickael Laredo, Paris*
- L'IDE en salle pendant une exploration — *Elisa Quinquis et Gladys Guillerm, Brest*

15.00 – 16.00

Se repérer / se guider :

Modération : Céline Alba, Nancy – Augustin Bortone, Nîmes

- L'infirmier d'échographie cardiaque en salle d'intervention — *Céline Leroi, Le Havre*
- Apport de l'imagerie en coupe pour l'ablation — *Bruno Soré et Vincent Pannetier, Bordeaux*
- Impact des rayonnements ionisants sur le personnel
- de santé — *Corentine Chaumont, Rouen*
- Table ronde

16.00 – 17.00

Les différents systèmes de navigation 3D : quelles spécificités pour l'installation, pour quelles indications ?

Modération : Gil d'Amicis, Luxembourg - Jérôme Hourdain, Marseille

- Système CARTO — *Aurélie Maron et Nina Bouche, Nancy*
- Système ENSITE X — *Benoît Frey et Aurore Garrigoux, Paris*
- Système OPAL HDx — *Valérie Burnot et Ons Marsit, Grenoble*
- Système AFFERA — *Vanessa Mougin et MaximeTissier, Besançon*
- Table ronde

17.00 – 17.30 Pause-café dans l'exposition
Ateliers pratiques de rythmologie du RETAC

*Orateur pressenti**

17.30 – 18.30

Les ablations de tachycardies supraventriculaires

Modération : Jessica Colpin, Troyes – Jacques Mansourati, Brest

- TRIN — *Sandrine Venier, Grenoble*
- Voie accessoire — *Cédric Klein, Lille*
- Flutter atrial commun — *Laurence Jesel, Strasbourg*
- QUIZ ECG — *Grégoire Massoullié, Clermont-Ferrand*

JEUDI 26 NOVEMBRE

09.00 – 10.30

Troubles du rythme ventriculaire

Modération : Carole Mette, Saint-Denis – Benjamin Sacristan, Bordeaux

- ESV quand proposer une ablation et comment la pratiquer ? *François Lesaffre, Reims*
- Ablation de TV endocardique (indication, différentes stratégies substrat vs circuit) *Néfissa Hammache, Nancy*
- Ablation de TV par voie épicardique (indication, complication) *Kévin Gardey, Lyon*
- Ablation de TV sous ECMO *Redwane Rakza, Rennes*
- L'IDE en salle pendant l'ablation de TV *Karine Petit, Tours*
- Table ronde

10.30 – 11.00 Pause-café dans l'exposition
Ateliers pratiques de rythmologie du RETAC

11.00 – 12.00

Les nouvelles techniques

Modération : Lauranne Nicolleau, Poitiers – Alexis Hermida, Amiens

- Electroporation : les différents systèmes *Maxime de Guillebon, Pau*
- Cardio neuro ablation *Léa Benabou, Bordeaux*
- Radiothérapie externe *Karim Benali, Saint-Etienne*
- Explo humérale *Céline Alba, Nancy*

12.00 – 13.15

Pédiatrie, cardiopathie congénitale et canalopathie

Modération : Mélanie Girault, Paris – Victor Waldmann, Paris

- Prise en charge spécifique de l'enfant : quand ablater, quelques exemples d'arythmies *Alice Maltret, Le Plessis-Robinson*
- Syndrome de BRUGADA : test à l'ajmaline et ablation : chez qui ? quand ? Comment ? *Antoine Delinière, Lyon*
- QT long et torsades de pointes *Isabelle Denjoy, Paris*
- Spécificités non médicales de la prise en charge des enfants *Nathalie Fournier et Mathilda Borel, Lyon*
- Table ronde

13.15 – 14.15 Pause déjeuner dans l'exposition
Ateliers pratiques de rythmologie du RETAC

*Orateur pressenti**

14.15 – 15.30

Ambulatoire

Modération : Adrien Labrude, Chartres – Bertrand Pierre, Tours

- Pour quels types de procédure ? Exploration, ablation, tests médicamenteux — *Marjorie Niro, Saint-Denis*
- Organisation d'un centre — *Karine Simonneau et Ericka Schuurman, Toulouse*
- Ablation de FA en ambulatoire ? — *Jean-Luc Pasquié, Montpellier*
- Table ronde

15.30 – 16.40

La FA et flutters atypiques

Modération : Léo Warning, Neuilly-sur-Seine – Xavier Waintraub, Paris

- Les différents types de FA (définitions, mécanisme, impact…) — *Hugo Marchand, Saint-Laurent-du-Var*
- Ablation : quelle stratégie pour la FA parox / la persistante ? — *Jan Charton, Bordeaux*
- Les flutters atypiques ? — *Néfissa Hammache, Nancy*
- Quiz FA — *Charles Guenancia, Dijon*
- Table ronde

16.40 – 17.10 Pause-café dans l'exposition
Ateliers pratiques de rythmologie du RETAC

17.10 - 18.20

Évolutions professionnelles

Modération : Jimmy Guibert, Le Mans – Raoul Bacquelin, Chambéry

- L'accueil du nouvel arrivant — *Marion Guelton et Martin Dastakian, Rouen*
- Retour d'expérience du nouvel arrivant — *Lucas Balsan, Montpellier*
- Les formations de l'industrie — *Céline Alba, Nancy*
- DIU de rythmo et perspectives — *Carole Mette, Saint-Denis*
- Table ronde

VENDREDI 27 NOVEMBRE

09.00 - 10.00

Gestion des complications

Modération : Hélène Valette, Quimper – Mina Ait Said, Massy

- BAV complet : mécanismes, prise en charge — *Bochra Boulahrir, Paris*
- Tamponnade/épanchement péricardique : quelle prise en charge ? — *Sélim Abbey, Nantes*
- Sus décalage : causes et prise en charge — *Baptiste Maille, Marseille*
- Hématome/fistule : comment les prévenir ? Comment les traiter ? — *William Escande, Saint-Denis*
- Table ronde

10.00 – 11.00

Gestion du stress et de la douleur

Modération : Maryse Cussonneau, Saint-Brieuc – Benoît Guy-Moyat, Limoges

- Rôle IDE /IADE — *Edith Gomez, Saint-Denis*
- Rôle infirmier dans la prise en charge de la douleur en salle d'intervention — *Maurane Blot et Camille Renaut, Rennes*
- Quand l'anesthésie générale est-elle nécessaire ? — *Guillaume Sart, Massy**
- Table ronde

11.00 – 11.30 Pause-café dans l'exposition
Ateliers pratiques de rythmologie du RETAC

11.30 - 12.50

Les nouveaux rôles des soignants

*Modération : Bénédicte Toxe, Créteil – Vladimir Manenti, Massy**

- IPA en rythmologie : parcours, contraintes règlementaires — *Charlotte Dubois, Bordeaux*
- La prise en charge des facteurs de risque de FA par l'IPA — *Audrey Marchal, Nancy*
- L'IDE de programmation — *Amélie Bareille, Pau*
- Leadership et recherche infirmière en rythmologie — *Carole Mette, Saint-Denis*
- Expérimentation sur la réutilisation des DMUU — *Sandra Noël et Sandra Wloch, Bordeaux*
- Table ronde

12.50 – 13.50 Pause déjeuner dans l'exposition
Ateliers pratiques de rythmologie du RETAC

*Orateur pressenti**

ATELIERS PRATIQUES DE RYTHMOLOGIE DU RETAC

MERCREDI 25 NOVEMBRE

17.00 – 17.30

Interprétation des électrocardiogrammes embarqués (stimulation/defibrillation)
Adrien Carabelli, Grenoble – Quentin Voglimacci Stephanopoli, Toulouse

JEUDI 26 NOVEMBRE

10.30 – 11.00

Interprétation des électrocardiogrammes embarqués (stimulation/defibrillation)
Benoît Guy-Moyat, Limoges

13.45 – 14.15

Interprétation des ECG de Surface
Stéphane Combes, Toulouse – Nicolas Combes, Toulouse

16.40 - 17.10

Préparation examen EHRA
Stéphane Combes, Toulouse – Benoît Guy-Moyat, Limoges

VENDREDI 27 NOVEMBRE

10.50 - 11.20

Interprétation carte mapping 3D : le supraventriculaire
Nicolas Combes, Toulouse – Benoît Guy-Moyat, Limoges

13.20 - 13.50

Interprétation carte mapping 3D : le ventricule
Sandrine Venier, Grenoble – Quentin Voglimacci Stephanopoli, Toulouse

COMPUTATIONAL ELECTROPHYSIOLOGY WORKSHOP WITH EP WORKBENCH

The **Computational Electrophysiology Workshop with EP Workbench** is designed to introduce participants to **modern computational methods in cardiac electrophysiology** using the **EP Workbench and OpenEP software** environments.

The workshops will provide **practical**, **hands-on experience** in the **analysis** and **interpretation** of **electrophysiological data,** with a particular focus on computational mapping, voltage analysis, conduction assessment, and multimodal data integration.

THURSDAY, NOVEMBER 26

08:30–09:30 **11:00–12:00** **14:30–15:30**

Computational Electrophysiology Workshop with EP Workbench

FRIDAY, NOVEMBER 27

09:30–10:30 **11:30–12:30**

Computational Electrophysiology Workshop with EP Workbench
